

Member Benefits

Visibility & Thought Leadership:

- Gain visibility and credibility by presenting your expertise at Vulcan-hosted events and co-creating programs that position your organization as a thought leader.
- Showcase your expertise on the world stage with priority access to speaking opportunities at premier industry events such as OHDSI, HIMSS, VIVE, SCOPE, and DPHARM.
- Opportunities to build high-value connections by participating in exclusive policy events, such as Policy to Practice, in conjunction with TEHDAS, giving you access to government leaders and decision-makers.
- Ability to propose new use cases or lead projects aligned with the Vulcan mission statement.

Content & Amplification:

- Share your thought leadership directly with the global research and pharma community via Vulcan's website and newsletters, with full attribution to you and your organization.
- Extend the reach of your expertise by having your articles amplified through Vulcan's LinkedIn campaigns, ensuring your insights are seen by thousands in the community.
- Highlight your innovations or people as part of Vulcan's Member Spotlight program, boosting your brand visibility across Vulcan's global networks.

Influence & Belonging:

- Logo displayed on the Vulcan website and member directory.
- Permission to use the "Proud Vulcan Member" logo on websites, email signatures, and marketing collateral.
- Opportunities for video interviews and podcasts featuring members' projects or leadership.
- Priority invitations to participate in Vulcan's community platform discussions and spotlight webinars.
- Recognition in Vulcan's annual "State of the Industry" or "Impact" report.
- Opportunity to join Vulcan committees or working groups to help shape the future of interoperability.
- Be part of a trusted, global network driving change together.
- Have your voice heard in setting the agenda for future Interventional and Observational Research Standards.

Accelerating Clinical Research Through Interoperability

HL7 Vulcan is a global collaboration of over 50 members across pharma, regulators, academia, consortia, and health technology innovators. Together, we are transforming translational and clinical research by advancing interoperability through HL7 FHIR® standards. As an HL7 FHIR® Accelerator, Vulcan gives members a seat at the table where the future of research-to-care interoperability is being shaped alongside regulators, standards bodies, and global industry leaders. No other initiative brings together this unique mix of stakeholders to co-create solutions that are both technically sound and regulator-ready.

The Future is FHIR

FHIR is already mandated for health data exchange in the US under the 21st Century Cures Act and is rapidly gaining traction worldwide. HL7 Vulcan is where industry, academia, and regulators collaborate to ensure FHIR is implemented in ways that accelerate research, reduce duplication, and deliver impact across the research-to-care continuum. Joining HL7 Vulcan gives your organization a seat at the table where the future of translational research interoperability is being shaped. Become a member today and position your organization among the global leaders driving interoperability forward.
